

Editing Tips

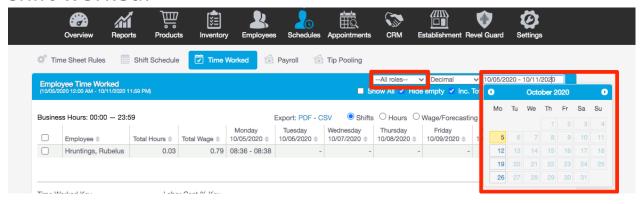

Store Managers can edit an employee's declared tips directly in the Management Console in the Time Worked page. Adjustments should only be done during the active payweek and prior to close of business on Sunday.

If an employee <u>entered their declared tips</u> incorrectly on the Point of Sale, managers can edit the tips in the Management Console. To do this:

1. In the Management Console, go to the **Schedules** tab and then the **Time Worked** tab:

2. Use the role and date filters to find the correct employee and shift worked:

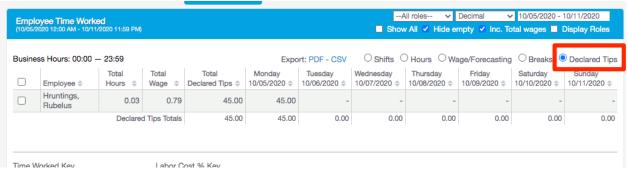

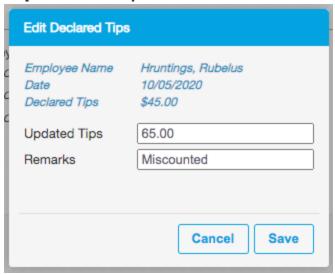

Editing Tips

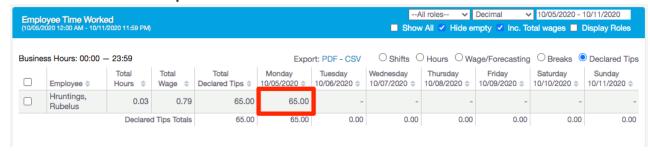

3. Next, check the **Declared Tips** option:

4. Find the day/shift where the tips were entered incorrectly. Click the cell. A new window will appear. Enter the **Updated Tips** and any **Remarks**. Click **Save**:

5. You'll see the updated amount in the cell:

Any edits of declared tips as well as remarks will be saved in the **Action Log (Reports > Action Log)**
